

**The Wisconsin Association for Middle Level Education
is proud to introduce**

“Super Teacher”

Conference participants who are new to Middle Level Education will be particularly interested in watching for this symbol next to learning labs and sectionals as these sessions will provide them with interesting information on the best ways to work with early adolescent learners.

Those individuals who are interested in a refresher on current, well researched, best practices surrounding the key elements of high-quality Middle Level Education will also find these sessions of interest.

Learning Labs and Sectionals that are focused for our newest members are identified with this symbol.

We hope that you find all of the sessions helpful as you develop and refine your Middle Level Education practices!
